

Backend Take Home Challenge

Description - Checkbox Detection

Backend Challenge: Checkbox Detection

One of the active areas of development at HomeVision is extracting structured information from images. The challenge for you is to develop a system that detects and classifies checkboxes in document images.

The Problem

You are asked to design and implement a system that:

1. **Detects the location** of all checkboxes (filled and unfilled) within a document image.
2. **Classifies each checkbox** as either filled or unfilled.

Perfect accuracy is not expected.

Requirements

Your system must expose an **HTTP API** with the following endpoint:

```
POST /detect
```

Input: A document image (sent as a file upload).

Output: A JSON response with the following structure:

```
{
  "boxes": [
    {
      "bbox": [x1, y1, x2, y2],
```

```
    "is_checked": true
  },
  {
    "bbox": [x1, y1, x2, y2],
    "is_checked": false
  }
]
```

Where `bbox` contains the pixel coordinates of the top-left and bottom-right corners of each detected checkbox.

Sample Images

Here are 4 document images you can use to test your system against. These images represent real-world appraisal documents with varying characteristics.

Uniform Residential Appraisal Report

File # 00000000

The purpose of this summary appraisal report is to provide the lender/client with an accurate, and adequately supported, opinion of the market value of the subject property.

Property Address **742 Evergreen Terrace** City **Springfield** State **IL** Zip Code **62704**
 Borrower **Homer Simpson** Owner of Public Record **Homer Simpson** County **Sangamon County**

Legal Description
 Assessor's Parcel # _____ Tax Year **2022** R.E. Taxes \$ **515**
 Neighborhood Name _____ Map Reference **Bay** Census Tract **14.02**
 Occupant ☒ Owner ☐ Tenant ☐ Vacant _____ Special Assessments \$ **0** _____ PUD HOA \$ **0** _____ per year _____ per month

Market Conditions Addendum to the Appraisal Report

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.																																																																						
Property Address 4, Private Drive			City Little Whinging		State X		ZIP Code																																																															
Borrower Vernon Dursley																																																																						
Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include that data in the analysis. If data sources provide all the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

Explain in detail seller concessions trends for the past 12 months (e.g. seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs condo fees, options, etc.)																																																																						
Concessions reported have been decreasing to 0.82% from 1.09% 12 months back. Since real estate agents are not required to report concessions by Georgia MLS, only reported concessions were analyzed.																																																																						
Are foreclosure sales (REO sales) a factor in the market? ☒ Yes ☐ No If yes, explain (including the trends in listings and sales of foreclosed properties).																																																																						
During the past year, a significant proportion of sold listings and active listing have been bank-owned properties (REO sales). The excessive number of REO's have contributed to the decline in market value over the past year. However, the data for the area indicates a trend towards a stabilization over the previous six months.																																																																						
Cite data sources for above information.																																																																						
MLS - The information was derived from a 1 mile radius search around the subject property.																																																																						
Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales, and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.																																																																						
There were a total of 44 Comparable Settled Sales in the past 12 months.																																																																						
The Median Sales Price for the prior 7-12 months was \$279,950 the current to prior 3 months is \$349,900.																																																																						
Months Supply for the prior 7-12 months was 2.8 and 1.4 for the current to prior 3 month period.																																																																						
The Median Days on Market for the prior 7-12 months was 6 and 132 for the current to prior 13 month period.																																																																						
The statistics above were generated from an exported MLS market search. Details regarding the calculations and process can be found online at http://bradfordsoftware.com/1004mc/calc.shtml .																																																																						
If the subject is a unit in a condominium or cooperative project, complete the following:																																																																						
<table border="1"> <thead> <tr> <th>Subject Project Data</th> <th>Prior 7-12 Months</th> <th>Prior 4-6 Months</th> <th>Current - 3 Months</th> <th colspan="3">Overall Trend</th> </tr> </thead> <tbody> <tr> <td>Total # of Comparable Sales (Settled)</td> <td></td> <td></td> <td></td> <td></td> <td>Increasing</td> <td>Stable</td> <td>Declining</td> </tr> <tr> <td>Absorption Rate (Total Sales/Months)</td> <td></td> <td></td> <td></td> <td></td> <td>Increasing</td> <td>Stable</td> <td>Declining</td> </tr> <tr> <td>Total # of Active Comparable Listings</td> <td></td> <td></td> <td></td> <td></td> <td>Declining</td> <td>Stable</td> <td>Increasing</td> </tr> <tr> <td>Months of Unit Supply (Total Listings/Ab. FEMA Special Flood Hazard Area ☐ Yes ☒ No FEMA Flood Zone **D** FEMA Map # _____ FEMA Map Date _____
 Are the utilities and off-site improvements typical for the market area? ☒ Yes ☐ No If No, describe _____

Is the site size, shape and topography generally conforming to and acceptable in the market area? ☒ Yes ☐ No If No, explain _____

Is there adequate vehicular access to the subject property? ☒ Yes ☐ No If No, describe _____

Is the street property maintained? ☒ Yes ☐ No If No, describe **The streets with in Lake Riverside Estates are maintained by the HOA.**

Are there any adverse site conditions or external factors (easements, encroachments, environmental conditions, land uses, etc.)? ☐ Yes ☒ No If Yes, describe _____
The site is located on a residential street surrounded by similarly improved properties. No adverse easements/encroachments noted.

The HUD Data Plate/Compliance Certificate is located on the interior of the subject and contains, among other things, the manufacturer's name, trade/model name, year manufactured and serial number. The HUD Certification Label is located on the exterior of each section of the home.
 Is the HUD Data Plate/Compliance Certificate attached to the dwelling? ☒ Yes ☐ No If Yes, identify the location. If No, provide the data source(s) for the HUD Data Plate/Compliance Certificate information. **Under the Kitchen Sink**
 Is a HUD Certification Label attached to the exterior of each section of the dwelling? ☒ Yes ☐ No If No, provide the data source(s) for the HUD Certification Label #'s _____
The subject has 2 sections, both of which had an exterior HUD label

Date of Manufacture _____
 Do the Wind, Roof Load, and Thermal Zones meet the minimum HUD requirements for the location of the subject property? ☒ Yes ☐ No If No, explain _____
According to the Compliance Certification.

Guidelines

- You can use **any method and any tools** you want.
- Your solution must include instructions on **how to build and run** it.
- Include a brief **writeup** explaining your approach, the tradeoffs you made, and any known limitations.
- Feel free to use `TODO` comments to identify parts of the solution where you would do additional work for production-quality code.
- We value **your reasoning and decision-making process** as much as the final result. Be prepared to explain why you chose your approach over alternatives.

Submission

When your solution is complete, use the form below to submit a zip of your project files (including your writeup). We will review your solution and get back to you to schedule a one-hour challenge review meeting. In that meeting, you will walk us through your code and approach.

Good luck and have fun!
